

1st London Colney Beaver Colony

Space Activity Badge

Name: _____

1. Point out some of the things you can see in the night sky. It could be stars, the moon or planets.

What did you see? _____

2. Point out and name at least one constellation you can see.

Draw the constellation here and write its name. _____

3. Name the eight planets in our solar system.

1. M _ _ _ _ _

6. J _ _ _ _ _

2. V _ _ _ _

5. S _ _ _ _ _

3. E _ _ _ _

7. U _ _ _ _ _

4. M _ _ _

8. N _ _ _ _ _

4. Find out about a current space mission.

Write or draw what you have found out here.

Top tips

You can see different constellations during different seasons in the year!

There are eight planets in the solar system, but there used to be nine. If you'd like to, you could find out about the 'other planet' from an adult.

The International Space Station (ISS) is carrying out lots of exciting experiments in space. On some nights you can see the ISS in the sky – it travels quite quickly and looks like a star.

To find out where the International Space Station is and get more tips on astronomy, visit meteorwatch.org

Right now, there are vehicles called 'landers' exploring the surface of Mars. If you go on the NASA website, you'll find photos they send back. Visit nasa.gov
