

Winter homes for wildlife
Create cosy winter hidey holes for woodland creatures

When the weather gets colder, animals and minibeasts search for somewhere warm and safe.

Have a go at making a shelter for them. Use fallen leaves, sticks and other natural bits and bobs to create a super snug hideaway. Make sure it's out of the wind!

Did you know...? Only three types of British mammal hibernate: hedgehogs, dormice and bats.

Feel free to copy and share this for personal and educational use – and don't forget there are loads more brilliant activities to download on our website!
